Deleting Checklist

Thank you for downloading the Deleting Checklist from http://sagegrayson.com. Take some time to delete, remove, or create a boundary around the things that drain your energy or frustrate you.

Instructions

- For each category, write down several action steps that you want to take to delete the bad influences in your life.
- I've provided an example for each category to get you started.
- If you can't delete a bad influence completely, create a boundary around it to protect your energy. You might need to limit your time around a negative family member or keep a certain junk food out of the house.
- Once you've filled out the checklist, try to complete one of the deleting action steps per day until you've handled them all.
